

Bacteria

Trophic Level: 5 (Decomposer)

What you eat: dead or decaying matter

Fungi

Trophic Level: 5 (Decomposer)

What you eat: dead or decaying matter

Detritus

Trophic Level: 1

What are you: dead plant & animal matter

What eats YOU: aquatic insects, shrimp, earthworms, snail, tadpoles, freshwater mussel, crayfish

Lily pads

Trophic Level: 1

What YOU eat: sunshine (photosynthesis)

What eats YOU: aquatic insects, snail, crayfish

Algae

Trophic Level: 1

What YOU eat: sunshine (photosynthesis)

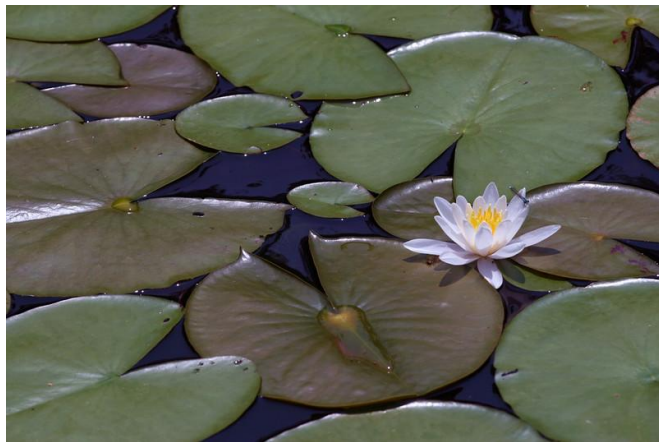

What eats YOU: aquatic insects, shrimp, earthworms, minnow, snail, tadpoles, freshwater mussel, sculpin, bluegill

Cattails

Trophic Level: 1

What YOU eat: sunshine (photosynthesis)

What eats YOU: aquatic insects, snail, raccoon

Duckweed

Trophic Level: 1

What YOU eat: sunshine (photosynthesis)

What eats YOU: aquatic insects, snail, turtle

Native Grasses

Trophic Level: 1

What YOU eat: sunshine (photosynthesis)

What eats YOU: aquatic insects, snail, earthworms, coyote, bear

Wapato

Trophic Level: 1

What YOU eat: sunshine (photosynthesis)

What eats YOU: aquatic insects, snail, crayfish, humans

Phytoplankton

Trophic Level: 1

What YOU eat: sunshine (photosynthesis)

What eats YOU: shrimp, zooplankton, minnow, snail, freshwater mussels

Earthworms

Trophic Level: 2

What YOU eat: algae, detritus, bacteria, fungi, native grasses

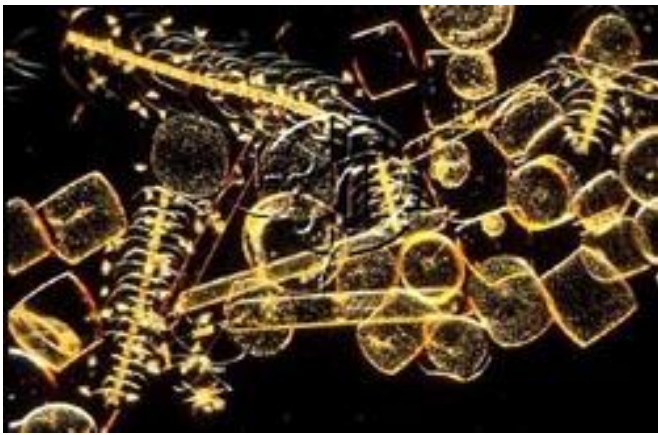

What eats YOU: crayfish, frog, turtle, sculpin, bluegill, garter snake, dippers, cutthroat trout, largemouth bass, merganser, bear, raccoon

Aquatic Insects

Trophic Level: 2

What YOU eat: algae, detritus, lily pad, cattail, duckweed, native grasses, Wapato, zooplankton

What eats YOU: crayfish, frog, turtle, sculpin, bluegill, dippers, cutthroat trout, largemouth bass, merganser, mink, otter, great blue heron, minnow

Freshwater Shrimp

Trophic Level: 2

What YOU eat: algae, detritus, phytoplankton, zooplankton

What eats YOU: crayfish, sculpin, bluegill, cutthroat trout, largemouth bass, merganser, great blue heron

Minnow

Trophic Level: 2

What YOU eat: algae, phytoplankton, aquatic insects, snail

What eats YOU: crayfish, frog, turtle, sculpin, garter snake, dippers, cutthroat trout, largemouth bass, mink, river otter, raccoon, great blue heron

Freshwater Snail

Trophic Level: 2

What YOU eat: algae, detritus, phytoplankton, lily pads, duckweed, cattail, native grasses, Wapato

What eats YOU: crayfish, frog, turtle, bluegill, cutthroat trout, largemouth bass, minnow

Tadpoles

Trophic Level: 2

What YOU eat: algae, detritus

What eats YOU: crayfish, frog, turtle, dippers, garter snake, largemouth bass, merganser, great blue heron, raccoon

Zooplankton

Trophic Level: 2

What YOU eat: Phytoplankton

What eats YOU: crayfish, sculpin, bluegill, aquatic insects, cutthroat trout, shrimp, freshwater mussels

Freshwater Mussels

Trophic Level: 2

What YOU eat: algae, detritus, Phytoplankton, zooplankton

What eats YOU: turtles, merganser, mink, river otter, raccoon, humans

Columbia River Signal Crayfish

Trophic Level: 3

What YOU eat: aquatic insects, minnow, shrimp, earthworms, tadpoles snails, zooplankton, detritus, lily pads

What eats YOU: turtle, crayfish, merganser, cutthroat trout, bass, great blue heron, bald eagle, mink, river otter, bear, raccoon, humans

Red-legged Frog

Trophic Level: 3

What YOU eat: aquatic insects, minnow, snail, earthworms, tadpoles

What eats YOU: garter snake, cutthroat trout, merganser, largemouth bass, river otter, mink, bear, great blue heron, raccoon, coyote, bald eagle, humans

Western Pond Turtle

Trophic Level: 3

What YOU eat: aquatic insects, snail, freshwater mussels, minnow, earthworms, duckweed, tadpoles

What eats YOU: largemouth bass, river otter, bald eagle, great blue heron, raccoon

Mottled Sculpin

Trophic Level: 3

What YOU eat: aquatic insects, earthworms, shrimp, minnow, zooplankton, algae, crayfish, other sculpin

What eats YOU: cutthroat trout, mink largemouth bass, merganser, river otter, great blue heron, bald eagle, raccoon

American Dipper

Trophic Level: 3

What YOU eat: aquatic insects, earthworms, small minnow, tadpoles

What eats YOU: mink, river otter, bald eagle, raccoon, coyote

Bluegill

Trophic Level: 3

What YOU eat: aquatic insects, snail, earthworms, shrimp, zooplankton, algae

What eats YOU: merganser, largemouth bass, mink, river otter, bear, great blue heron, bald eagle, raccoon, humans

Common Garter Snake

Trophic Level: 3

What YOU eat: minnow, earthworms, tadpoles, frogs

What eats YOU: mink, river otter, great blue heron, bald eagle, raccoon, coyote

Cutthroat Trout

Trophic level: 4

What YOU eat: crayfish, frog, sculpin, aquatic insects, zooplankton, minnow, snail, shrimp, earthworms

What eats YOU: bacteria, fungi, humans, river otter, mink, bear, great blue heron, bald eagle, raccoon

Largemouth Bass

Trophic Level: 4

What YOU eat: crayfish, frog, turtle, sculpin, bluegill, garter snake, snail, shrimp, minnow, tadpoles, earthworms, aquatic insects

What eats YOU: bacteria, fungi, humans, river otter, mink, great blue heron, bald eagle

Common Merganser

Trophic Level: 4

What YOU eat: crayfish, frog, sculpin, bluegill, shrimp, earthworms, tadpoles, freshwater mussels, aquatic insects

What eats YOU: bacteria, fungi, mink, bald eagle, humans

Bald Eagle

Trophic Level: 4

What YOU eat: crayfish, frog, turtle, dippers, bluegill, garter snake, sculpin, cutthroat trout, largemouth bass, raccoon, merganser, great blue heron, river otter

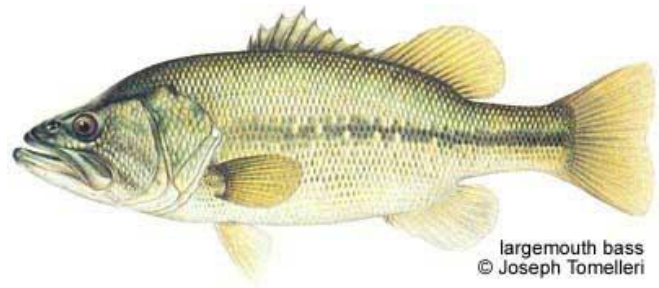

What eats YOU: bacteria, fungi, raccoon (eat eggs), coyote (eat flightless young)

River Otter

Trophic Level: 4

What YOU eat: crayfish, frog, turtle, sculpin, dippers, bluegill, garter snake, freshwater mussels, minnow, aquatic insects, cutthroat trout, largemouth bass

What eats YOU: bacteria, fungi, bald eagle, coyote

American Mink

Trophic Level: 4

What YOU eat: crayfish, dippers, frogs, sculpin, bluegill, garter snake, freshwater mussels, aquatic insects, minnow, merganser, cutthroat trout, bass

What eats YOU: Bacteria, fungi, coyote

Coyote

Trophic Level: 4

What YOU eat: frogs, dippers, garter snake, bald eagle young, river otter, mink, great blue heron, native grasses

What eats YOU: bacteria, fungi

Black Bear

Trophic Level: 4

What YOU eat: crayfish, frog, bluegill, earthworms, native grasses, cutthroat trout

What eats YOU: bacteria, fungi, humans

Great Blue Heron

Trophic Level: 4

What YOU eat: crayfish, frog, turtle, sculpin, bluegill, cutthroat trout, largemouth bass, garter snake, minnow, shrimp, tadpoles, aquatic insects

What eats YOU: bacteria, fungi, bald eagle, coyote

Raccoon

Trophic Level: 4

What YOU eat: crayfish, frog, turtle, dippers, sculpin, bluegill, garter snake, freshwater mussels, minnow, earthworms, tadpoles, cattail, cutthroat trout, bald eagle eggs

What eats YOU: bacteria, fungi, bald eagle, coyote, humans

Humans

Trophic Level: 4

What YOU eat: crayfish, frog, bluegill, freshwater mussels, Wapato, cutthroat trout, largemouth bass, bear, raccoon

What eats YOU: bacteria, fungi
